PEONAGE.

Federal investigations in Georgia, the possible result of the statement recently made by the U. S. Attorney General on racial conditions there, have unearthed evidences of crimes which can not be equalled in atrocity by anything so far chronicled in American criminal achievement.

The findings of the investigators so far made public include: The operation of a large plantation in Jasper county by Negroes held in peonage; maintenance of a guard over them with the aid of a member of their race; an organized rule by which plantation workers were held in servitude, and the systematic slaying of all who were feared as possible informers.

The bodies of eleven men thus slain have been found. Six of them were found chained together and weighed in the Yellow of a previous coercive enslavement. river into which they had been thrown; the others were found with their skulls split with an axe, buried in shallow graves digged by them before being murdered.

More recent investigations have disclosed an effort, instigatsons to cause rumors of an uprising of the Negroes of that section against white people in order that sentiment might be made
